

Franklin County Memorial Hospital is pleased to let you know that we are now offering financing through NaluPay to help you comfortably manage your out-of-pocket costs.

With an approval from NaluPay, you'll have access to financing plans of up to 48 months with as little as 0% interest, helping to lower your payment and extend your terms on a plan that works for your budget.

There is no impact to your credit for applying and viewing your options, no obligation to move forward and no prepayment penalties when you do begin financing. To receive approval, you must have a credit score of at least 580, and a balance of \$500 or over.

NaluPay is not a credit card and will provide you with low monthly payments with no surprises or hidden fees.

To apply for financing and view your options simply click the link below:
