

IV Therapy

Myers Cocktail: It is our most popular IV Therapy request; treat dehydration after extreme exercise or too much alcohol intake (also known as the Hangover Treatment), boost your immune system, increase levels of energy, and reduce fatigue, relieve stress, treat hangovers and headaches, and helps restore balance. **Cost \$170.00**

Migraine Relief Therapy: One of the primary advantages of IV Therapy for migraines is the rapid relief it offers. Because the nutrients enter the bloodstream directly, they can act more quickly than oral medications, potentially providing faster relief from the debilitating symptoms. Magnesium has shown to reduce the effect of acute migraine attacks, since migraines have been linked to a magnesium deficiency.

Dehydration and Nutritional Deficiencies can often trigger or exacerbate migraines. IV Therapy can help address these issues by providing the body with essential vitamins, minerals, and hydration, potentially reducing the frequency and severity of migraines. **Cost \$110.00**

Mood Improvement Therapy: When people are under an immense amount of stress or are lacking key nutrients, the thyroid, adrenals, and other endocrine organs suffer. When these are under functioning, you will experience symptoms like moods swings, depression, and in some cases anxiety. Delivering essential nutrients directly to your bloodstream with IV Therapy can calm the body and eliminate moodiness, irritability, chronic fatigue, fibromyalgia, and seasonal related depression, IV Therapy for Stress Relief can help your body effectively handle stress and keep hormones balanced. **Cost \$150.00**

Immune System Booster: Nobody has time for getting sick for days/weeks. Stay ahead of the cold and flu season by giving your immune system a boost of hydration, vitamins, nutrients, and antioxidants with our Immune System Booster. IV Immune Therapy hydrating qualities is one of the most effective ways to boost your immune system. The vitamins is a powerful way to gear up for cold and flu season. IV fluids also help remove toxins from your body before they build up a weakened immune system. **Cost \$135.00**

Anti-Aging Therapy: Anti-Aging IV Therapy works to support your beauty from the inside out. IV Therapy provide a streamlined approach to nourish your body with the nutrients it needs for radiant skin, lustrous hair, and glamorous nails. Your skin is a reflection of how healthy your organs are, which means the better off your organs are, the better your skin will look and feel. IV Therapy can improve your skins health and reduce wrinkles by supporting your body's functions. **Cost \$135.00**

Detoxification Therapy: Simply going outside can introduce your body to free radicals, agents that promote signs of aging and zaps energy levels. Feeling tired or low on energy can be a result of multiple health issues. One of the most commonly overlooked causes is a sluggish liver. When your liver becomes overworked, it becomes less efficient at filtering out toxins. This toxic buildup can lead to fatigue and drain your energy. This therapy is also used to help clear the body of heavy metals including mercury, cadmium, arsenic, iron, and copper. **Cost \$135.00**

Men's Health Therapy: Men's Health Therapy delivers the nutrients your body and mind may benefit from the most and give you more energy, improved immunity, maximize physical performance, reduce hypertension, enhance your vascular health, and help combat a fatty liver. **Cost \$135.00**
